GIFT OF SEYMOUR B. DURST OLD YORK LIBRARY

MESSAGE FROM THE PRESIDENT

THE WHITE HOUSE,
January 27, 1944.

To the Congress of the United States:

As required by the provisions of the Emergency Relief Appropriation Act, fiscal year 1943, I present herewith a report of the operations under funds appropriated to the Work Projects Administration of the Federal Works Agency by the Emergency Relief Appropriation Acts, fiscal years 1942 and 1943.

This report contains summary and detailed statements of expenditures made and obligations incurred by classes of projects and amounts as of November 30, 1943; and a brief statement of operations of the Work Projects Administration to the end of the fiscal year 1943.

FRANKLIN D. ROOSEVELT.

LETTER OF TRANSMITTAL

FEDERAL WORKS AGENCY,
Washington, January 24, 1944.

The PRESIDENT,
The White House.

MY DEAR MR. PRESIDENT: I have the honor to transmit a report of the operations under funds appropriated to the Work Projects Administration by the Emergency Relief Appropriation Acts, fiscal years 1942 and 1943, pursuant to the provisions of section 26 of the Emergency Relief Appropriation Act, fiscal year 1943.

The report gives, with illustrative tables, a complete account of financial operations and a brief statement on employment provided, sponsors' contributions, and physical accomplishments.

Respectfully yours,

PHILIP B. FLEMING,
Major General, United States Army,
Administrator.

REPORT ON OPERATIONS AND EMPLOYMENT OF THE WORK PROJECTS ADMINISTRATION

EMPLOYMENT AND OPERATIONS

In July 1935 the Work Projects Administration (then the Works Progress Administration) began the operation of a program of useful public projects to provide jobs for employable needy persons. On June 30, 1943, all activities of the Work Projects Administration ceased pursuant to the order issued by the President on December 4, 1942. Under that order operations in many States were terminated on February 1, 1943, and in the remaining States on varying dates between February 1 and the close of the fiscal year. Operations in Puerto Rico and the Virgin Islands were continued by the Work Projects Administration through June 30, 1943, in order to alleviate distress caused by war conditions.

By the provisions of the Second Deficiency Appropriation Act, 1943, approved July 12, 1943, funds for the liquidation of the Work Projects Administration during the fiscal year 1944 were appropriated to the Administrator of the Federal Works Agency, in the amount of \$1,065,000, out of unobligated balances remaining under appropriations of the Emergency Relief Appropriation Act for the fiscal year 1943.

Funds for the continuance of operations in Puerto Rico and the Virgin Islands during the fiscal year 1944, until November 30, 1943, were appropriated to the Administrator of the Federal Works Agency, in the amount of \$7,000,000, by the provisions of the deficiency act above cited. Operations in Puerto Rico and the Virgin Islands were terminated on November 30, 1943.

The Work Projects Administration, in the 8 years it was in operation, gave employment to more than 8,500,000 different persons. Its program of work projects extended and improved public facilities and services in communities throughout the Nation. A large part of the work performed has been of great value in the Nation's war program.

EMPLOYMENT ON WORK PROJECTS ADMINISTRATION PROJECTS

Work Projects Administration operations in the 1943 fiscal year were on a small scale. The Emergency Relief Administration Act for the fiscal year 1943 provided funds sufficient only for the employment of an average of 400,000 workers a month. The number of workers on Work Projects Administration projects was reduced from an average of 698,000 in June 1942 to about 525,000 in July. In December 1942, the average employment was 337,000. From this point, as projects were completed or discontinued in compliance with the President's order, the monthly average employment decreased rapidly. From an average of 289,000 project workers in

January 1943, Work Projects Administration employment decreased to an average of 136,000 in March, and by June 1943 the average employment was 42,000. More than 40,000 of the Work Projects Administration workers on the rolls in June 1943 were employed on work projects in Puerto Rico and the Virgin Islands. This downward trend is evidenced in table No. 1 which states by month, from July 1935, the average employment on Work Projects Administration projects.

Beginning early in 1940, an increasing share of the Work Projects Administration program was devoted to defense and war projects. The average number of persons employed on projects certified as important for military or naval purposes rose from 4 percent of total project employment in July 1940, to 21 percent in July 1941, and to 35 percent in July 1942. Later in the 1943 fiscal year the percentage rose to 41 percent in April 1943, and in June represented 61 percent of total project employment.

Work Projects Administration workers were employed on a wide variety of public projects most of which were initiated and sponsored by local communities. Work Projects Administration workers in the fiscal year 1943 were, as previously, employed in the largest numbers on projects for the construction or improvement of highways, roads, and streets. On December 15, 1942, 21 percent, or about 71,000 workers, were employed on such projects. All construction projects employed almost 58 percent of total Work Projects Administration employment in June 1942, and about 44 percent in December 1942. The decline in the relative importance of construction projects was due in large part to the shortage of both qualified workers and of critical materials.

There was a corresponding increase in the percentage of Work Projects Administration workers employed on nonconstruction activities. On December 15, 1942, 56 percent of the total project workers were engaged in nonconstruction activities. Of these, 6 percent were employed on training projects, chiefly in preparation for employment in war industries.

Service projects employed 49 percent of the workers employed on Work Projects Administration operated projects. Almost 43,000 persons, or 13 percent, were on war service projects giving clerical and technical assistance to agencies engaged in war work and recreational service to the armed forces and to workers in war industries. Nearly 122,000 workers, or 36 percent, of total project workers, were employed on health and welfare programs providing nursery schools, hot school lunches, housekeeping aide, clothing, and health services.

WORK PROJECTS ADMINISTRATION PROJECT ACCOMPLISHMENTS

The Work Projects Administration, through the utilization of the labor of needy employable workers, extended the physical facilities and the public services of communities all over the country. It is not possible to make a complete summary of all the accomplishments resulting from Work Projects Administration projects, since many kinds of work performed were not subject to physical measurement. The following summary, and the data stated in table No. 2, indicates the extent and variety of Work Projects Administration project work.

In the 8 years of the Work Projects Administration program, July 1, 1935, through June 30, 1943, more than 651,000 miles of highways, roads, and streets were constructed or improved. About 572,000 miles were rural roads, including farm-to-market roads, access roads to military reservations and war-production plants, and new roads in areas previously inaccessible to motor traffic. More than 67,000 miles of the total constructed or improved represented the construction and improvement of city streets, a part of which was done in order to care for the increased traffic load resulting from the Nation's war program. Nearly 12,000 miles included roads in parks, around buildings, and on military reservations.

The work performed on highways and roads frequently required the improvement or construction of bridges and viaducts, culverts, guardrails and guardwalls, and gutters. In 8 years, Work Projects Administration workers built 78,000 bridges and viaducts and reconditioned 46,000 others. In addition, more than 1,179,000 culverts were constructed or reconditioned. About 163,000 miles of drainage ditches and pipes were installed or repaired. Sidewalks, curbs, gutters, and guardrails built or improved totaled more than 70,000 miles. More than 1,200 tunnels were constructed or improved.

Public buildings constructed by Work Projects Administration workers for various purposes totaled nearly 40,000, and improvements were made to more than 85,000 existing buildings. Included in these were 6,000 new school buildings and 33,000 schools enlarged or reconditioned; more than 1,000 libraries constructed or improved; and about 15,000 auditoriums, gymnasiums, and other recreational buildings newly built or renovated. The construction or improvement of 2,500 hospital buildings provided hospital facilities to outlying areas, increased the capacity of existing hospitals, and improved and added to the facilities on military and naval reservations.

Work Projects Administration workers constructed or reconditioned outdoor recreational facilities which included 3,200 stadiums and grandstands, 8,200 parks, 12,800 playgrounds, and 5,500 athletic fields. Swimming and wading pools; handball, horseshoe, and tennis courts; ice-skating areas, ski trails and jumps; bandshells and outdoor theaters, were also constructed and improved.

Water and sewer systems were installed, expanded, or modernized in many areas through Work Projects Administration projects. Work Projects Administration workers installed 16,000 miles of new water mains and distribution lines, and reconditioned 3,700 miles of existing lines. About 450 water-treatment plants, and more than 3,800 storage tanks and reservoirs, were built or reconstructed. More than 1,500 sewage-treatment plants were built or reconstructed, and 27,600 miles of storm and sanitary sewers were constructed or improved. Work Projects Administration workers, in connection with their work on public utilities, installed and reconditioned more than 6,200 miles of telegraph and telephone lines, 4,600 miles of electric power lines, and more than 3,400 miles of line for police, fire alarm, and traffic signal systems.

The construction and improvement to airport and airway facilities by Work Projects Administration workers was a major contribution to the transportation system, and was valuable in the Nation's defense and war programs. Work Projects Administration workers, in 8

years, constructed and improved more than 900 landing fields; built and improved more than 1,100 miles of runways; and constructed and improved taxi strips, aprons, and turning circles. Drainage ditches and pipes were installed and repaired, and floodlights and boundary lights were erected. In addition to the work on landing fields, almost 1,200 airport buildings were constructed, and more than 3,000 were enlarged or improved.

Work Projects Administration workers participated in the Nation-wide scrap collection project sponsored by the War Production Board. Through the program of removal of abandoned streetcar rail, Work Projects Administration workers collected 148,000 tons of rail, in addition to 2,500 miles of car and railroad track removed incidental to work in improving roads and streets. In the period from April 21, 1942, to March 2, 1943, Work Projects Administration workers collected from agricultural and urban sources more than 376,000 tons of scrap metal and 10,000 tons of rubber.

Through nonconstruction projects, Work Projects Administration workers, many with training and experience in professional and clerical fields, provided educational, health, and recreational services to communities all over the country. In the last year of the Work Projects Administration program, many of the services previously offered were discontinued in favor of services which contributed directly to the war program.

Unemployed teachers on Work Projects Administration service projects in January 1942 taught literacy and naturalization classes which enrolled more than 98,000 persons, vocational training classes which enrolled 55,000, and homemaking and parent education classes which enrolled 87,000 persons. In the same period, 35,000 children were enrolled in more than 1,200 Work Projects Administration nursery schools.

Some 1,600 independent libraries were operated by the Work Projects Administration and 4,300 libraries were given assistance by Work Projects Administration workers during the 3-month period ending June 30, 1942. During the 8 years of the Work Projects Administration program, Work Projects Administration workers repaired or renovated nearly 95,000,000 books.

Work Projects Administration art and music activities provided entertainment and instruction for the general public. In January 1942, 175,000 persons were enrolled in music instruction classes and 25,000 in art instruction classes. Work Projects Administration workers in that month gave 6,000 concerts, at which there was a total attendance of more than 2,400,000 persons. In the 8-year period of the Work Projects Administration program, artists working on Work Projects Administration projects produced nearly 22,000 plates for an Index of American Design, 108,000 easel works, about 11,000 fine print designs, nearly 18,000 pieces of sculpture, and more than 2,500 murals.

Work Projects Administration workers on sewing projects produced 383,000,000 garments for distribution to needy men, women, and children, and 118,000,000 other articles, including hospital supplies and household articles, for distribution as needed. Women on sewing projects mended and reclaimed army clothing and equipment at the request of the Army. Work Projects Administration workers serving as housekeeping aides made more than 32,000,000 visits to the homes of needy families to help out in emergencies. Through

June 30, 1943, Work Projects Administration workers served more than 1,237,000,000 hot lunches to school children.

Work Projects Administration workers assisted public-health agencies and public hospitals in administering physical examinations, treatments, tests of various kinds, and immunizations against communicable diseases. In January 1942 more than 73,000 tests and immunizations were made.

SPONSORS' PARTICIPATION

The cost of operating projects was shared by the State or local public agencies which sponsored the projects. Sponsors' contributions were used chiefly to pay for materials, supplies, and equipment, and other nonlabor items incurred in project operations. As shown in table No. 3, sponsors contributed 30 percent of project costs, or \$115,196,000, during fiscal year 1943. This is only a slightly smaller amount than was contributed in the previous fiscal year. Although certified war projects were exempt from the usual 25 percent requirement of sponsors' funds, sponsors' contributions remained high. Nearly \$92,390,000, or about 80 percent of sponsors' funds, was expended for nonlabor items such as materials and equipment; the balance was expended for the wages of skilled and technical workers necessary for project operations but not available on the Work Projects Administration rolls.

BY CLASSES OF PROJECTS*Status of funds available for fiscal year 1943, as of Nov. 30, 1943*

FUNDS MADE AVAILABLE

NEW APPROPRIATION OR FUNDS

Specific appropriation, Emergency Relief Appropriation Act, fiscal year 1943.....	\$280,000,000.00
Add:	
Unobligated balances transferred from the—	
Emergency Relief Appropriation Act of 1938.....	\$438,116.39
Emergency Relief Appropriation Act of 1939.....	385,216.75
Emergency Relief Appropriation Act, fiscal year 1941.....	5,662,487.93
Emergency Relief Appropriation Act, fiscal year 1942.....	54,361,599.04
Unobligated balances of appropriations earmarked for Federal construction projects under the Emergency Relief Appropriation Acts of 1938 and 1939, and the Emergency Relief Appropriation Acts, fiscal years 1941 and 1942, which were made available for the fiscal year 1943 by the provisions of sec. 1 (a) of the Emergency Relief Appropriation Act, fiscal year 1943, without transfer action, together with the amount earmarked for Federal construction projects under the Emergency Relief Appropriation Act, fiscal year 1943, all of which were consolidated into 1 fund pursuant to the authority contained in Public Law 140, 78th Cong., and, thereby, lost their identity as separate acts appropriations.....	7,542,805.83
Unobligated balances transferred from the consolidated Federal construction appropriation.....	187,831.74
Deduct: That portion of the consolidated Federal construction project appropriation, further described above, which emanated by transfer from the Emergency Relief Appropriation Act, fiscal year 1943, and which is included above in the "Specific appropriation".....	-3,079,933.03
Net addition to the specific appropriation.....	65,498,124.65
Total available for obligation or transfer.....	345,498,124.65
Less transfers:	
Allocations to other Federal agencies for planning and review of Work Projects Administration projects under authority of sec. 5 (a) of the Emergency Relief Appropriation Act, fiscal year 1943.....	25,127.22
Total available for obligation by the Work Projects Administration during fiscal year 1943.....	345,472,997.43
Obligations incurred during the fiscal year 1943, adjusted as of Nov. 30, 1943.....	239,352,003.26
Unobligated balance of funds which were available during fiscal year 1943.....	106,120,994.17
Add: Unobligated balance of the appropriation of the Emergency Relief Appropriation Act, fiscal year 1942, which, although not available for obligation under such appropriation was available for transfer to the Emergency Relief Appropriation Act, fiscal year 1943, under which obligations could have been incurred.....	1,574,051.78
Gross unobligated balance of funds available to the Work Projects Administration....	107,695,045.95
Less: Amount transferred to the Administrator, Federal Works Agency, for the liquidation of the Work Projects Administration, pursuant to the provisions of Public Law 140, 78th Cong.....	1,065,000.00
Net unobligated balance available for transfer to the surplus fund of the Treasury....	¹ 106,630,045.95

¹ Excludes unobligated balances under funds transferred to other Federal agencies pursuant to the cited provisions of prior emergency relief appropriation acts, as follows:

Act	Sec.	Unobligated balance
1938.....	3.....	\$7,479.92
1939.....	11 (a).....	82,670.75
Fiscal year—1941.....	10 (a).....	93,651.77
1942.....	6 (a).....	200,587.92
1942.....	Work relief, supply fund.....	40,000.00
1943.....	5 (a).....	1,469.60
Total.....		425,859.96

These balances are available for retransfer to the accounts of the Work Projects Administration, and upon their receipt will supplement the amount available for transfer to the surplus fund of the Treasury.

Status of funds appropriated to the Work Projects Administration, by organization, as of Nov. 30, 1943
